

QUEENS' COLLEGE, INDORE

SUMMER ASSIGNMENT

WING- MIDDLE

CLASS - VII

**QUEENS' COLLEGE INDORE
SUMMER ASSIGNMENT 2021-22
CLASSES VI-VIII**

Greetings!

This year you will experience a summer break with a difference. The holidays will give you a chance to observe your surroundings at a closer quarter as well as take into account your strength and gain. Imagination is more powerful than intellect. We wish you to involve yourself in the suggested activities for your own grooming and personal growth.

There are two groups of activities. You have to do one activity from each group.

Group A (Any one)

1. Potpourri of treasures

Objective

To enhance observation skill

To promote Analytical thinking

You will collect a wide array of objects of interest and describe it.

For instance- dried leaf, flower, caricature, stamp.

Instructions

- * take an old copy
- * decorate the borders
- * make an index
- * Give a title (eg My Collection)
- * paste your finding on separate pages and describe it (where did you get it- newspaper, book, waste, garden, why did you include it, what is it)
- * Your feedback at the end on this activity

2. Pictionary

To enhance vocabulary

To contribute in resource building

You will create a VOCAB bank (at least 30 words) and illustrate it with relevant visual and usage.

In an old copy/ diary, make four boxes and write your selected word and add information- meaning, usage and paste a picture related to it.

3. Journal writing

To inculcate self-awareness

To imbibe decision making and critical thinking
 You need to write about their daily activities and experiences briefly with specific details- date ,time ,event,learning/resolution.You can use a diary or spare copy for this Decoration is optional.

Group B (any one)

1.Grow a green thumb

To foster empathy with nature

To ensure mindful engagement

Maintaining a garden and keeping a record of the growth of the saplings with notes on its height , response to light and temperature.

Start with two saplings .research on them and take care of them.In an old notebook you can maintain the weekly record. Also take photographs of it.

2.Culinary delight

To ensure mindful engagement

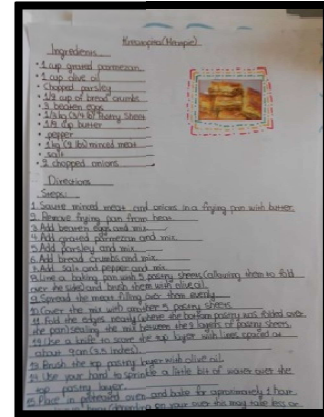

To apply science concepts

The students will create a recipe book on healthy dishes with images and recipe with nutrients count.

You can select any copy or diary for this .

Keep the images in a word file

Write step wise recipe and nutrition value and ingredients required.

3.Inter disciplinary Project

Science Outlook

To inculcate reading

To develop research skills

You will create a Science magazine and cover the topics of History of invention, latest tech and articles on Future of Science.

You can undertake the project in a copy and make a cover page with the name of the Magazine written.

You can divide your magazine into

History- research on Scientific inventions/ Medicines

Tech news- new inventions

Quotes of Scientists

Paragraph on Future of Science

Your mini magazine can be of 15 -20 pages.

Happy Learning!
